

ANIMATION FACTORY - dynamic communication easy produced

Meteor (eircom), Ireland

Become a designer without any specialist knowledge

Have you always wanted to visualise your entire product range? With as little expense as possible for advertising production? You have found your ideal content composer: screenFOOD®

ANIMATION FACTORY!

Efficient advertising material creation

Your animated and interactive commercials will be designed as if by professionals. You only need to organise your content (pictures, videos, texts, prices etc.); the software will do everything else for you.

A multitude of applications

Your multimedia will be ready in seconds and presented on your digital information screen. Transmission takes place either at a specific location or on all screens simultaneously.

Outstanding quality

It is this easy to advertise your entire range of products without any specialist knowledge. Professionally designed and premium-quality advertising for your products.
