

Telenor, Norway

Minimal spread losses and high attention guaranteed

If you want to publish the right content efficiently, at the right locations, screenFOOD® CS is exactly the right software for administering your digital screens.

Competence and experience

We will use our competence and many years experience to help you enhance your costumers' shopping experience, increase sales and generate more attention at the point of sales - to make your solution a success.

Automated content creation

This sophisticated system allows a large number of media to be administered efficiently and linked, thus leading to automated content creation and distribution. Reduce effort and time and save costs!

Independent editing

You and your team can work together on the same project. Thanks to the sophisticated rights management system, everyone can have different access rights depending on competence and field of work.

screenFOOD® CS

- Available to purchase or as SaaS (Software as a Service)
- Multilingual GUI
- Professional rights management for individual access rights
- Dynamic content creation with a simple input mask
- Many media and video formats can be incorporated
- Flexible time planning
- Incorporation of corporate design

Enhanced shopping experience

Telenor, Norway

Integrated measures

Present your digital product range in a customer-friendly, interactive way. Open up a new purchasing dimension to your customers and integrate different measures to form an eventful solution - the possibilities are far-reaching and effective. The digital in-store communication serves as a perfect complement to the innovative positioning of your brand.

Individual advertising for your customers

Melectronics, Switzerland

Location-specific transmission

Administrate your contents online on the screenFOOD® platform and have them automatically distributed to the screen of your choice according to your time schedule - in different languages for different countries. By linking it to your internal goods system you can, for example, also publish product-specific advertising for articles available in the shop in question.

Increasing the sales of your products

Migros Gastronomie Zürich, Switzerland

Successful advertising

You can increase your sales with dynamic product/product range advertising on digital screens. The simple and fast exchange of product details means that changes can be reacted to efficiently. This will reduce both costs and time in the long term. You will also have a modern, trend-setting presentational appearance.
